We have been using this software for close to 3 years now and have found it very user friendly and a great help in ensuring we cover every aspect of the Audit. The fact that it can generate necessary paragraphs for use in the ACR and Management Letters is also a time saving factor. I have recommended it to many of my fellow colleagues and will continue to do so.

Online SMSF Audit works well with our systems, very happy that I decided on this software after evaluating other available audit software's. Highly Recommended to SMSF Auditors who are keen to do a good audit.

Very good Audit Software. I will recommend it all auditors who are using a paper or an outdated checklist to audit funds.

# Actuarial Certificate

For the biggest savings on Actuarial certificates, [www.onlinesmsfaudit.com.au](http://www.onlinesmsfaudit.com.au) now offers Section 295-390 (ITAA1997) actuarial certificates for \$55 (including GST). This is almost one third the price you would pay for a actuarial certificate elsewhere. Our Actuarial Certificates still retain the same technical standards and are provided by **Professional Financial Solutions Pty Ltd**. Our actuary Peter May has over 30 years of experience in the financial services industry with a reputation for quality and consistency. All Actuarial certificates are issued within the same day (conditions apply). We even email and store all your certificates for future downloads.

Actuarial certificate can be purchased for only the year of audit (say FY ended 30th June 2017), but to purchase AC for next year (FY ended 30th June 2018), you will need your auditor to complete an audit on [www.onlinesmsfaudit.com.au](http://www.onlinesmsfaudit.com.au), so the year is rolled over to the following year. Hence, in other words, \$55 cost is for accountants whose auditors use our system.
